

# BRIDGER

## International Experience

Dear Valued Bridger Producer,

We are seeing an increase in policies that our insureds are quoted with INTERNATIONAL experience but we later discover that the insured does not have INTERNATIONAL experience or only has a CA ID or CA DL. Bridger Auto gives a significant discount for INTERNATIONAL drivers and requires that proof of the foreign license or ID is retained by the producer. If it is discovered that the insured does not have INTERNATIONAL experience or that the insured has a CA ID/DL, the insured might be subject to an uprate, cancellation, rescission of the policy, and denials of claims. Please quote customers appropriately based on the type of license and identification that they have. If you have any questions about this message, please contact Customer Service or your Marketing Representative.
