

# A Message To Our Brokers

Dear Broker,

In its efforts to expedite the Underwriting and Claims services, Bridger and SafeAuto will be requiring that all submitted policies include the driver's license number for each driver on the application. For drivers with only a foreign driver's license, a copy of the foreign license or proof of foreign citizenship must be provided.

## Overview of Driver License Requirements and Unacceptable Drivers

### Driver's Licenses:

Applicants must have a valid driver's license that meets at least one of the following criteria:

- 1) an active, expired, or suspended driver's license issued in the U.S.
- 2) a California provisional license or learner's permit
- 3) an active driver's license issued in another country (A revoked license is not considered a valid driver's license.)

### Unacceptable Drivers

Examples of unacceptable drivers include the following:

- 1) Any driver without a valid driver's license. See **Driver's License** above for the definition of "valid driver's license"
- 2) Any driver with a suspended driver's license unless an SR Filing will reinstate the license.
- 3) Any driver with a driver's license suspended due to a medical condition that prevents the safe operation of a motor vehicle.

Thank you,

Bridger Insurance Services
